

myHoodora Logo & Brand Guidelines

v1.0 · September 2026 · page 1 of 2 · Identity, colour, type, spacing

1 Logo anatomy & construction

- 1 Badge disc Ø 96 u, #147C73
- 2 House 62 × 60 u, off-white; door is one open notch
- 3 Coral dot Ø 14 u at +27 / -21 from centre
- 4 Wordmark outlined custom lettering, cap height 41.4 u
- 5 Underline 332 × 5 u, radius 2.2, coral

1 u = 1 px of the supplied master. All shapes are hand-built paths on one grid; do not redraw or re-trace.

3 Typography

The wordmark is outlined custom lettering. The closest open font is Sora (Google Fonts): ExtraBold-plus for “Hoodora”, SemiBold-plus for “my”, set about 4% narrower. Always use the supplied artwork; never retype the name.

Headings

Sora Bold

Sora ExtraBold / Bold

Aa Bb Cc 123

Body & UI

Nunito Sans

Regular 400 / Bold 700

Aa Bb Cc 123

Why this pair: Sora is the nearest match to the logo, so headlines feel like the brand; Nunito Sans has open, friendly letterforms that stay readable at small sizes on low-end phones.

2 Colour palette

Teal

#147C73
RGB 20 124 115
CMYK 84 0 7 51

Primary. Badge, wordmark, backgrounds.

Coral

#FF6B5B
RGB 255 107 91
CMYK 0 58 64 0

Accent. Dot and underline only.

Off-white

#F2F2F2
RGB 242 242 242
CMYK 0 0 0 5

Reversed text/house, light backgrounds.

White

#FFFFFF
RGB 255 255 255
CMYK 0 0 0 0

Pure white: one-colour print & mono only.
CMYK values are a straight formula conversion for reference. Proof against your printer's profile (e.g. FOGRA39 / SWOP) and add a Pantone match before a large print run.

Black

#000000
RGB 0 0 0
CMYK 0 0 0 100

Mono print only (no rich black in logo).

Ink (proposed)

#1B2B29
RGB 27 43 41
CMYK 37 0 5 83

Text colour for docs; not in supplied files.

4 Clear space & minimum size

x = height of the “o” in the wordmark (33.6 u = 0.7 of the badge radius). Keep at least x clear on every side, in every file and layout.

Asset	Digital	Print
Horizontal lockup	140 px wide	35 mm
Stacked lockup	100 px wide	25 mm
Wordmark only	100 px wide	25 mm
Badge (Ø)	24 px (16 px favicon set)	8 mm

Below 32 px use the optically adjusted small badge (larger house and dot) supplied in the favicon set.

myHoodora Logo & Brand Guidelines

v1.0 · September 2026 · page 2 of 2 · Usage, don'ts, accessibility

5 Correct use on backgrounds

Light / white: full colour

Off-white: full colour

Brand teal: reversed

Dark neutral: reversed

On photos or busy imagery, place the one-colour white or black lockup on a calm, darkened or lightened area, or on a flat teal panel.

6 Don'ts

Don't stretch, squash or skew

Don't recolour any part

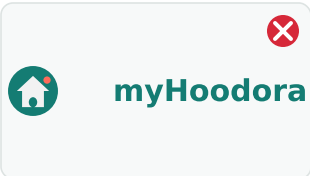

Don't add shadows, glows or outlines

Don't place on low-contrast colours

Don't rotate or tilt

Don't retype the name in another font

Don't rearrange or resize parts

Don't crowd it: keep x clear space

7 Contrast & accessibility (WCAG 2.2)

Ratios are computed from the exact brand HEX values. Body text needs 4.5:1 (AA); large text and meaningful graphics need 3:1.

Pairing	Ratio	Result
Aa Teal on White	5.05:1	AA
Aa Teal on Off-white	4.51:1	AA
Aa Off-white on Teal	4.51:1	AA
Aa White on Teal	5.05:1	AA
Aa Coral on White	2.80:1	Fail for text
Aa Coral on Off-white	2.50:1	Fail for text
Aa Coral on Teal	1.80:1	Fail for text
Aa White on Coral	2.80:1	Fail for text
Aa Black on Coral	7.51:1	AAA
Aa Ink on Off-white	13.17:1	AAA

What this means: teal/off-white/white pairings are safe for text. Coral is for the dot and underline only, never for text or small icons, and never the only carrier of meaning: both are decorative. On teal, coral reads at only about 1.8:1, so keep the dot and underline large and never put information in them.
